

Energy Block Grants Work!

CAMPAIGN TO SAVE EECBG

Greensboro Uses Federal Funding to Reduce CO₂ Emissions

The City of Greensboro, North Carolina is investing its Energy Efficiency and Conservation Block Grant (EECBG) funding to invest in a wide array of programs focused on **improving energy efficiency, reducing carbon dioxide emissions, educating the public and creating clean, carbon-free sources of energy.**

Greensboro is using EECBG funding to ...

- Retrofit City buildings with **energy-efficient lighting, HVAC controls, exterior fixtures and more** to reduce electricity use and lower utility bills.
- Install a 100 kilowatt capacity hydroelectric turbine at the local water treatment plant **to generate renewable energy.**
- **Educate the public** on how to conserve energy through a green jobs retraining programs, conducting outreach to schools and neighborhoods to promote environmental awareness and offering residential energy audits as well as retrofit demonstrations.

For more information about Greensboro's EECBG activities, contact

Josh Mullins at (336) 373-7944, or
Joshua.mullins@greensboro-nc.gov.

Impact on Greensboro, NC

- \$2.5 million in EECBG funding
- 24 jobs to be created or saved
- 43,430 megawatt-hours of energy saved
- 40,597 metric tons of CO₂e emissions prevented

Organized by Climate Communities, the Energy Block Grants Work! campaign is showcasing how cities and counties across America are using federal Energy Efficiency and Conservation Block Grant (EECBG) dollars to create jobs, save energy, and reduce carbon pollution.
